AL WASIT ROADS CONTRACTING

AGREEMENT FOR EXECUTION OF SERVICES

This agreement is entered into this 07th day of January 2008 by and between:

M/S Al Wasit Roads Contracting, hereinafter referred to as the "Main Contractor", P.O. Box: 87314, Dubai U.A.E. represented by Eng. Ali Shabani - General Manager;

AND

M/S Al - Harbi General Maintenance, hereinafter referred to as the "Sub-Contractor", P.O. Box: 231673, Dubai U.A.E. represented by Mr. Qassem Talfi, the authorized signature.

Project : Maintenance of Roads in Different Areas in U.A.E. for Concrete Barrier in Khorfakkan Coastal Road, Al Sharjah Area.

Client : Ministry of Public Works - Dubai U.A.E.

Duration : Open subject to termination any time

PREAMBLE:

Whereas the Main Contractor has been awarded a Project in Maintenance of Roads in Different Areas in U.A.E. by the Ministry of Public Works - Dubai U.A.E. for carrying out various maintenance works for different areas in United Arab Emirates.

The Sub-Contractor shall have access to the Main Contract to the extent and for the purpose of fulfilling his obligations under this agreement, and is accordingly deemed to have a thorough understanding of the same.

Whereas the Main Contractor is interested in utilizing the services of the Sub Contractor for the execution of Services / Works as specified in Appendix 1 (which form an integral part of this agreement) and accordingly both parties have discussed and agreed on the following terms and conditions.

1. The job executed shall be exactly as per the specifications / drawings required by the Client or his authorized representative and is subject to its approval.
2. Preparation of shop drawings if required is responsibility of the Sub-Contractor.
3. In case the executed job gets rejected by the client for what ever reason the Sub-Contractor shall re-execute the same to the satisfaction of the client.

What are ICFs?

ما هو نظام الكونكريت المعزول؟

- ICFs (Insulated or Insulating Concrete Forms) consist of two panels of foam
- Both layers of insulation are held together with cross ties or “webs” integrally mold into the foam to create a block or “form unit”.
- Insulation: Usually expanded (EPS) or extruded (XPS) polystyrene
- Cross Ties or Webs: Usually recycled plastic (HDPP), nylon or metal

العزل الحراري في نظام ICF

Thermal insulation in ICF's system

ICF Construction:

The darker colors of this ICF home, illustrates the high insulating value of the exterior walls which substantially reduces heating and cooling energy consumption year round.

CBS Construction:

Thermal image of a comparable, single story, CBS home highlighting the poor insulating value of this type of construction that will substantially increase energy consumption in both the cooling and heating seasons.

ICF House Survives Hurricane.

نظامنا يصمد امام الاعاصير والزلزال

أصول الجودة
OSOOL ALJAWDAH

In the summer of 2004, a series of four hurricanes struck Florida. Many houses built out of wood suffered severe hurricane damage, while homes next to them, built out of concrete, had much less damage.

ICF's Targeted Benefits

1. Half the time to construct.
2. 60 years life span of concrete buildings internationally.
3. High insulation value of R-22.
4. High S.T.C value of up-to 51.
5. Seismic resistant construction.
6. Cracks free internal & external surfaces.
7. Economical basement provision.
8. Early Return of property investments.
9. A/C tonnage savings up to 60%.
10. Bullet and Explosions proof structure.

ICF's Targeted Benefits

11. 40% less building dead load.
12. Extension friendly structure.
13. Up to 4 hours of fire resistive rating.
14. Better indoor air quality.
15. LEED certified building system.
16. 10% - 15% economical construction compare to conventional system.
17. Alteration friendly construction.
18. Various roof options.
19. Enables increase of daylight in building.
20. Tornado Resistant.

Our Specifications

مواصفاتنا

Our rates based on the following kinds of finishing as bellow :-

- ❖ External finishing (plaster + semi epoxy paint)
- ❖ Internal finishing (gypsum plaster + water base painting)
- ❖ Flooring (Ceramic tiles)
- ❖ Kitchen & bath rooms (ceramics Tiles)
- ❖ Electrical fittings and system (Upvc conduits and wirings and BG Brands switches)
- ❖ Sanitary fittings (PPR water system & UPVC drain piping)
- ❖ Doors (external Turkish made high sealed doors ,internal good quality wooden doors and frames with full locks and hinges)
- ❖ Windows (UPVC or Aluminum single glass high sealed)
- ❖ Roofing (water stop + 0.8x0.8 cement tile)
- ❖ External Boundary wall Door and hand rails (local fabrication)
- ❖ Bath sets (Turkish made bath sets and mixers)
